"A Contemporary Look at an Age-Old Problem ~
Bullying and Harassment in Our Schools"

"The reality of bullying as we are seeing it today goes far beyond the stereotype of the big kid who pushes around a smaller kid. It involves boys and girls, emotional and verbal behaviors, playgrounds and cyberspace. Many resources are available to help schools curb the occurrence and effects of harassing behaviors and create truly safe environments in our schools today. Sr. Roban will present a variety of perspectives for your information and use from her experience as a child therapist and school counselor."
